

Appl. No. 10/684,108
Examiner: Asok K. Sarkar, Art Unit 2891
In response to the Office Action dated April 7, 2005

Date: July 7, 2005
Attorney Docket No. 10113041

REMARKS

Applicant thanks the Examiner for acknowledging Applicant's claim to foreign priority and receipt of the certified copy of the priority document. Responsive to the Office Action mailed on April 7, 2005 in the above-referenced application, Applicant respectfully requests amendment of the above-identified application in the manner identified above and that the patent be granted in view of the arguments presented. No new matter has been added by this amendment.

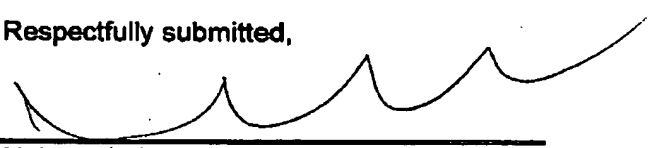

Present Status of Application

Claims 1-5 are pending. Claim 5 is withdrawn from consideration. Claims 1-4 are objected to for informalities found in claims 1 and 3. The drawings are objected to for failing to show features described in the specification. Claims 1-4 are indicated as allowable if claims 1 and 3 are rewritten in corrected form.

In this paper, the specification is amended to cancel features not shown in the drawings and to correct other informalities. In particular, reference to line "C-C" is canceled from the specification. Claims 1 and 3 are amended according to the suggestion of the Examiner. It is Applicant's belief that the objections to the drawings and claims 1-4 are thereby overcome. Withdrawn claim 5 is canceled in favor of a divisional application directed to the embodiment recited therein. Thus, on entry of this amendment, claims 1-4 remain in the application.

As the Examiner has indicated that claims 1-4 would be allowable if claims 1 and 3 were rewritten in corrected form, the Applicant believes that the application is now in condition for allowance and respectfully requests so.

Respectfully submitted,
